Dongguan TR Bearings Co., Ltd., headquartered in Dongguan, Guangdong Province, is a prominent manufacturer of "TR" brand pillow block bearing units. With an annual production capacity of 11 million sets, TR offers a wide range of over **3,000 product Variants**. TR brand is registered in **22 countries** and is supported by an extensive sales and export network across key global markets including India, Europe, the USA, Australia, Southeast Asia, and South Africa.

Key Features of TR Pillow Block Bearing Units

Superior Load Capacity

Each unit is crafted from a One-Piece **HT 200 (Grey Cast Iron)** or **QT450-10 (Ductile Cast Iron)** or **08 - 10 Cold-Rolled Steel Plate**, known for its high strength and durability under heavy loads.

Reliable Performance in Extreme Temperatures

Engineered to operate efficiently in a wide temperature range of **-20 °C to 110 °C**, making it ideal for demanding industrial environments.

Triple-Lid Seal Protection

Equipped with a **white slinger triple-lid seal system** made of **high-quality metal cap and synthetic rubber seal baked together to form a single seal**, designed to **withstand bad conditions like dirt and dust**.

High-Speed Efficiency

Operates at **20% to 25% higher RPM** compared to standard bearings, delivering superior performance in high-speed applications.

ISO 9001 Certified Quality

Backed by **ISO 9001 Certification**, ensuring consistent quality and manufacturing excellence.

Low Maintenance, High Reliability

Built for **long-term performance** with **minimal maintenance requirements**, reducing downtime and operational costs.

Full Self-Alignment

Capable of self-alignment when the bearing undergoes inevitable deformation or misalignment during mounting.
